Welcome to Heartline Romania Inc. I'm grateful that you're here.

This organization was created with one purpose: to help every adoptee of Romanian origin reclaim their story, reconnect with their roots, and find the truth that belongs to them. For too long, adoptees have carried unanswered questions about identity, family, and history. Heartline Romania exists to ensure that no one has to walk that journey alone.

Our mission is deeply personal. It is built on lived experience, on the stories of adoptees around the world, and on the belief that identity is a human right. Whether you are searching for records, seeking family connections, navigating institutions, or simply looking for a place where your story is understood — you are welcome here.

Heartline Romania stands as a bridge between past and present, between families separated by time and circumstance, and between the truth that was lost and the truth that can be restored. We approach every case with dignity, compassion, and respect. Every person matters. Every story matters. And every search deserves care.

As we grow, we are building a community rooted in transparency, ethics, and humanity. A community where adoptees are seen, heard, and supported. A community where healing is possible.

Thank you for visiting our website, for supporting our mission, and for believing in the work we do. Whether you are an adoptee, a family member, a volunteer, or an ally — you are part of this story now.

Welcome to Heartline Romania.

You are home.

Max 'Michael' Vandergraaf

Founder & Executive Director
